

Fine Lines

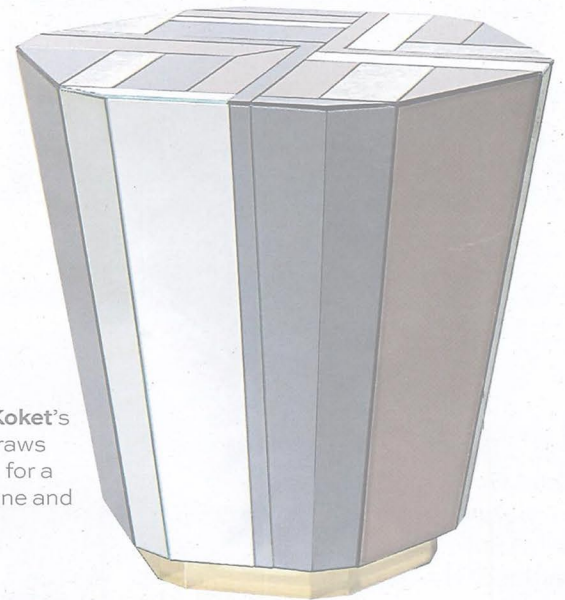

Whether stick-straight or asymmetrically tangled, some lines are meant to be crossed. Eye-catching furniture designs embrace geometry with a series of interconnected and overlapping motifs.

The result: The whole is greater than the sum of its parts.

A veritable labyrinth of lines animates **Imax's** Aurora chest with eye-popping optical allure, featuring two interior shelves for extra storage.

Fashioned from mirror, **Koket's** Lemprica side table draws on the Art Deco period for a mesmerizing display of line and form (\$8,980).

Intersecting lines create an intriguing sculptural composition in iron on **Urbia's** chamcha-topped console.

From **A.R.T. furniture**, bold stripes enliven a Scandinavian modern design in the comfortably canted Finn chair.

Simple antiqued brass hardware counters the dramatic contrasting effect of **Worlds Away's** sassy striped design.
